
IV-01 SUB-SUPPLIER QUALITY ASSURANCE**Purpose**

To establish the requirement that Suppliers must ensure the quality of product from Sub-Suppliers.

Supplier Responsibilities

General Requirements

1. Quality assurance of the sub-supplier (via an established method) is the responsibility of the supplier.
2. Supplier must establish an understanding with its suppliers that ADVICS may audit a sub-supplier's process. Additionally audits may include OEM representatives.
3. Process, method, or material changes with a sub-supplier require approval by ADVICS in accordance to the Process Change Request section of this manual. The required information is the same as that required of a Supplier Process Change Request.
